News releases in English, German, French & Italian

Images

REN2226

**Renesas Launches World's Most Highly Integrated Advanced Bluetooth Low Energy SoC**

REN2219

**Renesas Will Demonstrate the First Working Silicon Based on the Recently Debuted Arm Cortex-M85 Processor**

REN2227

**Renesas Delivers Industry's Most Complete Intelligent Sensor Solutions for IoT Applications**

REN2225

**Renesas Launches Cellular-to-Cloud IoT Development Platforms Powered by RA and RX MCU Families**

REN2223

**Renesas Releases Its Highest-Performance RZ/T2M Motor Control MPU Enabling Fast, High-Precision Control of Servo Motors**

REN2222

**Renesas Introduces Complex Device Driver Software to Ease Development of Battery Management Systems for Electric Vehicles**

REN2221

**Renesas Unveils Industry's First I3C Intelligent Switch Family for Next Generation Server, Storage and Communications Systems**

REN2218

**Renesas RA Family MCUs Achieve CAVP Certification for Comprehensive Suite of Cryptographic Algorithms**

REN2216

**Renesas Debuts Automotive ECU Virtualization Solution Platform to Enable Secure Integration of Multiple Applications for Zone ECU**

REN2214

**Renesas Launches Virtual Development Environment for Fast Automotive Application Software Development and Evaluation**
